**SEATTLE, Oct. 4.—(Exclusive Dis-

Marquis Ito today at a banquet in the  
evening, which signified a spontaneous  
outburst of enthusiasm for the great  
statesman. Ito has decided to continue  
his journey to Washington, where he  
will call on President Roosevelt. It  
was evident from the expression upon  
Ito's face that he was surprised at the  
ovation tendered him, and he said that  
he came to the United States as an in-

tive.

Replying to a speech of welcome, he  
spoke of the industrial progress in the  
United States, and advised its repre-  
sentatives to cultivate trade relations  
with Japan.

His secretary, replying to a question  
as to the loan Japan is said to seek  
in the United States, said it was news  
to the Marquis, and if such a move  
was contemplated, the money was in-  
tended for internal improvement. He  
admitted that Japan needed money  
temporarily, but was of the opinion  
that a loan would be made at home.  
Japan, he said, was in the midst of a

**MCABE VS. SHORTRIDGE.**  
**STRUGGLE FOR A SALARY.**  
**BY THE NEW ASSOCIATED PRESS—P.M.**  
**SAN FRANCISCO, Oct. 4.—**The con-  
flict between Edward D. McCabe and  
Charles M. Shortridge for the office of  
Building and Loan Commissioner was  
brought before Superior Judge Seawell  
today. McCabe having sued the State  
Controller in order to secure payment  
of the salary attached to the office for  
part of last July. McCabe was al-  
lowed the salary until July 17, when  
\$500 was recognized as McCabe's salary.  
The other commissioner, D. W. Field,  
Shortridge, has been drawing the  
salary since that date. A motion was  
made to dismiss the suit on the ground  
that it was really an action to try the  
title to an office.

and that a quo warranto proceeding  
was the proper one for that purpose,  
while the action before the court was  
a mandamus proceeding. Judge Seawell  
well denied the motion. He said that  
a quo warranto proceeding would be  
necessary where a new appointee was  
seeking to get possession of an office,  
but a person who was holding the of-  
fice, and whose ejectment was sought  
could not well begin such a proceed-  
ing.

**BY THE NEW ASSOCIATED PRESS—P.M.**  
**OAKLAND, Oct. 4.—**The forty-fifth  
annual session of the General Associa-  
tion of Congregational Churches of  
California adjourned sine die at noon.  
The next session will be held in Petal-  
uma.

Report was made this morning by  
Rev. Mr. Cherington of San Francisco,  
of the Seminary Committee, commending  
the purchase of the property for the  
buildings used in Berkeley by the  
Pacific Theological Seminary.

Rev. Dr. J. K. McLean, president of  
the seminary, said that the assets of  
the institution amounted to \$40,000.  
The annual income estimated was \$17,000  
and the expenses \$15,000. The insti-  
tution needed much more money.  
The officers of the association for  
next year are as follows: Moderator,  
Rev. L. D. Rathbone of Santa Rosa;  
assistant moderator, Rev. E. W. Stodard;  
scribe, Rev. B. M. Palmer, Benicia;  
assistant scribe, Rev. W. R. Baker,  
San Francisco; registrar, Rev. H. E. Jewett  
of Berkeley.

The following churches were added:  
the First Ward Memorial, Fruitvale;  
Armenian Church, Fresno; Church at  
Cotati, Sonoma county; Church at  
Galt was stricken from the roll.

annual session of the Methodist Epis-  
copal Church South in California were  
resumed this morning in Ashbury Meth-  
odist Episcopal Church. Bishop Dunn  
presided. A fraternal greeting was  
extended to the conference from the  
Congregational conference then in ses-  
sion, by Rev. Dr. J. K. McLean.

Rev. J. E. Moore, D.D., was ap-  
pointed by the bishop to carry greet-  
ings to the Methodist Episcopal Church  
conference to be held in San Francisco.  
Rev. Waters of Fresno delivered  
an address upon the work of In-

**OAKLAND, Oct. 4.—**James Jackson  
and James Robinson, boiler-makers at  
the West Oakland Railroad yards,  
were nearly killed this morning by the  
explosion of a tank car. They were in the  
tank repairing it when a spark from a  
hot iron caused the gas to explode. Both  
men were horribly burned, and may  
die. They were removed to the hospital.

information has been filed in the  
Superior Court here and warrants is-  
sued for the arrest of Capt. Walter Mc-  
Williams of San Francisco, and Capt.  
John Von Helms. The information  
charges them with piloting vessels in  
Puget Sound waters without first hav-  
ing obtained licenses from the Board  
of Pilot Commissioners.

**SENSATIONAL MURDER TRIAL.**

**BY THE NEW ASSOCIATED PRESS—P.M.**  
**OAKLAND, Oct. 4.—**The murder trial  
of Rev. Charles G. Adams, was re-  
sumed in the Superior Court today.  
Miss Adams, the young daughter of the  
defendant, was again called to the  
stand. She testified that of late years  
her father was a confirmed drunkard,  
and frequently had delirium tremens.

**RAISIN GROWERS CONFERENCE.**  
**COMMITTEE'S REPORT.**  
**BY THE NEW ASSOCIATED PRESS—P.M.**  
**FRESNO, Oct. 4.—**The committee of  
raisin growers met for a mass meeting  
of the California Raisin Growers  
Association, regarding the present de-  
moralized condition of the association  
and the low prices quoted for raisins,  
made its report tonight.

A majority of eight made the fol-  
lowing report:  
"It is our opinion that it is im-  
practicable to have this year's crop  
of raisins under the New Jersey cor-  
poration, and therefore all leases to  
the growers should be returned to the  
signers, condemning."  
That the prices of raisins named by  
the directors of the California Raisin  
Growers Association for this year's  
crop were lower than the market just-  
ified.

"That owing now to the thoroughly  
demoralized condition of the market,  
and the lateness of the season, each  
grower be allowed to market his crop  
in any manner he may choose."  
The minority makes no recommenda-  
tion. It realizes the impossibility of  
handling the crop under the new lease,  
and urges that all possible support be  
given to place the association on a  
solid basis.

**PRUNE GROWERS MEET.**  
**ASSOCIATION INDORSED.**  
**BY THE NEW ASSOCIATED PRESS—P.M.**  
**SAN JOSE, Oct. 4.—**A meeting of  
prune growers was held in the Willow  
district this afternoon, at which resolu-  
tions were adopted endorsing the  
management of the Pruned Fruit Asso-  
ciation and denouncing the efforts of  
a few disaffected members to place  
its affairs in the hands of a receiver.  
Judge Bond charged the president,  
James A. Packard, with having offered  
an officer of the association \$10,000 in cash  
if he would fix prices a certain way. He  
also charged that many of the persons  
who are attempting to break up the  
association are prompted by ulterior  
motives. About seventy-five growers  
were present.

**BRIEF COAST DISPATCHES.**  
**Wells Will Not Withdraw.**  
**SAN FRANCISCO, Oct. 4.—**Asa R.  
Wells, the Republican nominee for  
Mayor, will not withdraw from the  
campaign, as it was said he had threat-  
ened to do, unless his friend, E. P.  
Flint, was placed on the Supervisory  
ticket. Flint will not permit his name  
to be used in connection with the office  
of Supervisor.

**Gov. Geer Called to Ohio.**  
**SAN FRANCISCO, Oct. 4.—**Gov. Geer  
has received a telegram from Chairman  
Dick of the Ohio State Republican  
Committee asking him to assist in the  
Ohio campaign for the Republican  
ticket. The Governor will probably accept.

**Wanted Man Arrested.**

wanted in Randsburg to answer to  
charges of robbery and grand larceny,  
has been arrested in Fresno. Con-  
stable of Randsburg arrived to-  
day to take charge of the prisoner.

**Justice on Tires.**  
**FRESNO, Oct. 4.—**Justice Cosgrave  
today sentenced Charles Graft to six  
months imprisonment for maliciously  
puncturing bicycle tires. The justice  
regretted that the law did not provide  
a heavier penalty.

**Street Robber Arrested.**  
**SACRAMENTO, Oct. 4.—**Frank Flak,  
a young man who robbed Charles Allen  
of Colusa on the street early  
Wednesday morning, today pleaded  
guilty in the Superior Court, and was  
sentenced to two years imprisonment  
in the penitentiary at San Quentin.

**Coming This Way.**  
**SAN FRANCISCO, Oct. 4.—**Mrs.  
James A. Garfield, widow of President  
Garfield, passed through this city to-  
day, on her way to Pasadena, where  
she will spend the winter.

**Scholarship Fund Started.**  
**BERKELEY, Oct. 4.—**At a meeting  
of the citizens of 1901 at the University  
of California today, \$500 was raised  
as a nucleus for a \$10,000 scholarship  
fund. It is the intention of the class  
to loan sums of money from the fund  
to poor students, who will be expected  
to contribute to the fund as soon as  
they have finished their education.

**Return of the Ranger.**  
**SAN FRANCISCO, Oct. 4.—**The  
cruiser Ranger returned today from  
Panama, where she was sent by the  
government when the rebellion in  
Colombia reached an acute stage. There  
was no sign of any disturbance along  
the line of railroad between Panama  
and Colón.

**Clancy Acquitted of Murder.**  
**SAN FRANCISCO, Oct. 4.—**Patrick  
Clancy was this afternoon acqui-  
tied of the murder of the late J. N. E.  
Wilson, only a first-time attorney, and  
well known as a lawyer and politician.

**Prisoners Seeking Parole.**  
**SAN QUENTIN, Oct. 4.—**All day to-  
morrow and until tomorrow night, the  
prison directors will be engaged in the  
hearing of more than 300 applications  
for parole, made by prisoners confined  
in San Quentin Prison. It is possible  
that the number of applications may  
reach 250, since, if Gov. Gage can be  
persuaded, the applications of forty life-  
timers will also be heard.

**San Francisco Democrats.**  
**SAN FRANCISCO, Oct. 4.—**The Demo-  
cratic Municipal Convention made the  
following nominations for the coming  
year: Recorder, E. God-  
chaux; Public Administrator, Patrick  
Bond; District Attorney, L. F. Ry-  
lington; Tax Collector, J. F. Frazier;  
Police Judges, A. J. Frits and C. T. Con-

**ST. PAUL (Minn.) Oct. 4.—**At the  
Farmers' National Congress, Dr.  
J. W. Weston of the South Dakota  
Agricultural College, in a paper on  
"Farmers' Opportunities" discussed the  
necessity of securing aid from the  
government for the reclamation of  
the arid lands of the United States.  
West. He declared that private enter-  
prise had already accomplished all pos-  
sible to be done in this respect, and  
could be expected until the general  
government came to aid. He thought  
it not unreasonable to ask that \$15,000,000  
be expended for ten years in the  
reclamation of lands capable of sup-  
porting a population equal to the pres-  
ent population of the United States.  
He declared that nothing could be done  
until the general government made an  
appropriation, and he urged the farm-  
ers' congress to press the matter to the  
attention of Congress.

following official statement in connec-  
tion with the abduction of Miss Stone:  
"The American board from the first  
has done and is still doing everything  
in its power to secure the release of  
her captors in Turkey or Bulgaria, at  
the earliest possible date. Miss Stone  
is an American citizen, and rightfully  
looks to our government for protec-

## TRIENNIAL CONVENTION.

**Missionary Topics Most Popular.**

**Financial Problems are Grappled With.**

**Radical Action Urged on Marriage and Divorce—Progress in All Fields.**

THE NEW ASSOCIATED PRESS—P.M. 1. SAN FRANCISCO, Oct. 4.—Today's deliberations of the triennial convention of the Episcopal Church of America were mainly devoted to the missionary fields, and were of considerable popular interest. Neither the House of Bishops, nor the House of Deputies remained in separate session long this morning. A resolution was adopted to adjourn the convention sine die on Thursday, October 17, at 8 o'clock p.m.

Petitions from representatives of cities anxious to secure the next triennial meeting were presented in behalf of Pittsburgh, Boston, Cincinnati, Louisville and New Orleans. No action was taken, but on motion of J. Pierpont Morgan, a committee was appointed to decide where the next convention should be held.

The House of Bishops decided to take up the consideration of the constitution as soon as it is acted on by the House of Deputies. The House of Deputies decided to take up the matter of marginal readings, which were yesterday passed on by the bishops, as soon as it has finished the constitution, which it is now considering. The proposed canon on marriage and divorce will be considered next.

When the time came for calling to order the board of missions, there was scarcely standing room in the auditorium of the church.

The delegates remained standing while the bishops marched down the center aisle, and were given seats of honor. President Lindsay relinquished the gavel to venerable Bishop Tuttle of Missouri, and the order of business was read by Bishop Brewster, Bishop Doane of Ohio, and the annual report of managers, signed by himself, W. R. Huntington, H. R. A. T. Mahan, W. H. Frazer and General Secretary A. S. Lloyd.

The report of the Woman's Auxiliary and other missionary boards were also referred, after which General Secretary Lloyd delivered a reactionary address, which was impressive in its earnest eloquence.

The afternoon session was devoted to addresses by prominent missionary workers and attracted a larger attendance than that of the day before. The meeting of the convention since its opening.

During the day services were held in St. Luke's Church by the Daughters of the King, and tonight at St. Stephen's Church the Brotherhood of St. Andrew and the preparation for Holy Communion.

**GENERAL SESSION.**  
THE NEW ASSOCIATED PRESS—A.M. 1. SAN FRANCISCO, Oct. 4.—The opening prayer services of the triennial Episcopal convention in Trinity Church was conducted by Rev. M. Burrows of Rhode Island, the benediction being pronounced by Dr. Gray, Coadjutor Bishop of West Virginia. The music, which was exceptionally fine, was furnished by the Trinity choir.

**SEPARATE SESSIONS.**  
Immediately after the religious exercises, the House of Bishops and House of Deputies convened in separate sessions. President Lindsay presided over the House of Bishops, and the presentation and reception of representatives and petitions. These had reference to a number of subjects, and were all referred to the appropriate committees.

The consideration of amendments to the constitution submitted yesterday was not resumed today, having been set aside especially for the business of the House of Deputies.

The House of Bishops held a brief session devoted to the consideration of matters to come before the convention for action.

**JOINT BOARD OF MISSIONS.**  
Shortly before noon the two houses met in joint session as a board of missions. After organization the greater part of the first session was occupied by the presentation of reports, the most important being the annual report of the board of managers, annual reports on domestic and foreign missions, and reports of the bishops of various dioceses throughout the country.

Invitations from the Pittsburgh, Pennsylvania, Southern Ohio, Kentucky and Louisiana delegations were presented to the next general convention to be held within the bounds of their respective dioceses, the cities of Pittsburgh, Cincinnati, Louisville and New Orleans being named.

Journal sine die on Thursday, October 17.

The deputies then adjourned.

**HOUSE OF BISHOPS.**

In the House of Bishops the resolution by Bishop Edson of the jurisdiction of North Dakota has been accepted in order that he might become Bishop of Minnesota. A resolution was adopted inviting the Rt. Rev. I. Tikhon, the Russian-Greek Bishop of Alaska, to attend the services of the convention.

After adjournment the bishops proceeded to the main body of the church, where they were to sit with the deputies as a missionary board, during the remainder of the day.

The bishops formally entered the church where the deputies had been in session up to 11 o'clock, the board of missions was called to order by Bishop Tuttle.

Bishop Brewster reported an order of business. It provided for a very ample consideration of missionary topics during the session of the convention on various mornings and evenings.

**BOARD OF MANAGERS.**  
The triennial report of the board of managers was presented by Bishop Doane in a printed pamphlet of over two hundred pages, including reports of missionary bishops and financial matters.

Progress has been made in Mexico and some of the recently-acquired Spanish-speaking countries. The work among the heathen was reviewed, especially as affected by the trying times of the year in China. As to the home field, it was recognized that the claims for sympathy and support of the missionaries in the organized dioceses were on an equality with those with the missionary jurisdiction.

On the whole, a hopeful tone was apparent. The report stated that the policy of the church in regard to the work in certain lands, including the Roman communion as owing allegiance to the bishop of Rome was now plainly and positively settled.

Different matters in the report were rapidly referred to appropriate committees. At noon, the presiding bishop stopped the proceedings, a hymn was sung and prayer for missions was offered.

**MONEY FOR MISSIONS.**  
The Rev. Dr. Lloyd, general secretary of the board of missions, then addressed the board. He said the deficit reported was caused by the fact that the work had grown faster than the financial condition of the church.

The address was a strong argument and appeal for the better support of the church's missionary work. The deficit, he said, was not a disaster, but a challenge to the church's financial condition.

At noon, the presiding bishop stopped the proceedings, a hymn was sung and prayer for missions was offered.

**BOARD OF PUBLICATIONS.**  
John W. Wood, corresponding secretary of the board, spoke of the publications of the board.

The publications of the society, besides occasional pamphlets, are the Spirit of Missions, and the Young Christian Soldier. Of this last, he said, about one million copies had been put out for the Spirit of Missions a fairly prosperous year could be reported. The Young Christian Soldier, he said, was a year or two without material increase in cost. And yet a comparatively small number of the church families of the country have this magazine. He urged a greatly increased subscription to and reading of the Spirit of Missions.

There might be more intelligent interest in the missionary work.

**FINANCIAL MEASURES.**  
The bishop of Georgia said more thorough and systematic effort must be made in raising funds, and offered the following resolution:

"Resolved, That the board of managers be authorized to create a special committee to employ district secretaries:

"First—To arouse interest in the missionary offerings for the year, and to organize supplementary societies;

"Second—To solicit parish and personal pledges.

"Third—To impart missionary information and distribute missionary literature.

"Fourth—To encourage and assist in the formation of auxiliary societies, and to organize supplementary societies, when practicable."

He said the American church had never utilized special agents, or secretaries, such as have always been found so successful by the English missionary societies and by all manner of business enterprises.

The resolutions were referred to a special committee of two bishops, two clergymen and two laymen.

Bishop Batterlie said a tribute to the great efficiency of the board of managers, but claimed that the board had laid upon it and expected of it, and that some change was needed in the organization of the executive administration, and offered the following resolution:

"Resolved, That a committee consisting of five bishops, five clergymen and five laymen be appointed to report to the next meeting of this board of missions such changes in canon 7, title 3, constitution domestic and foreign missions, as in its judgment will tend to more efficiency in the work of that association."

The resolution was adopted. The bishop of Montana spoke on the report of the board of managers. He had no criticism to make, but thought any reorganization necessary. The great thing needed is more money, and if this was had the mouths of grumblers would be stopped.

We ought to raise this year one million dollars he said. "A specific sum should be asked for every diocese and missionary jurisdiction toward raising this amount. Do not call it an assessment, for no penalty is threatened, only a measure of duty expected to be voluntarily given."

The bishop offered resolutions covering his ideas on the matter. He advocated the appointment system in raising money for general missions. The bishop of Arkansas hoped an effort would be made immediately to raise an amount equal to the deficiency of 1918.

Further assistance would be expected by the bishops of California, and that the diocese would nevertheless keep up its full contributions for general missions. The section of California was an motion acknowledged with thanks and the hope that its example would be followed by others.

Dr. Stating of Alabama advocated systematic giving by all Christian people.

The resolutions of the bishop of Montana, which called for the bishop of Maryland, referred to a committee of fifteen. Adjournment was then taken.

**RADICAL TENETS.**  
DIVORCE AND REMARRIAGE.

THE NEW ASSOCIATED PRESS—A.M. 1. SAN FRANCISCO, Oct. 4.—The attitude of the Protestant Episcopal Church in America toward divorce and the remarriage of divorced persons is sure to give rise to much debate during the present general convention. A majority report prepared by some of the most learned bishops of the church will come up for action, recommending that the church adopt canon 10, 14, preventing a minister of the church from solemnizing a marriage between any two persons unless, or until by inquiry, he shall have satisfied himself that neither person has been or is the husband or the wife of any other person then living.

This is a sweeping law, not recognizing the divorce as a civil matter, and not permitting Episcopal clergymen to solemnize the marriage of an innocent party in a divorce.

The action taken by the church in this respect is a departure from the policy of the church in the past, which has been to leave the matter to the civil courts.

**Treason Trials Reveal Sedition Makers—Scouting a Lost Art—Botha's Horses.**

THE NEW ASSOCIATED PRESS—A.M. 1. LONDON, Oct. 4.—[By Atlantic Cable.] A dispatch to the Times from Dundee says that the Boers' attack on Fort Italda proves to have been a far bigger engagement than could be gathered from the first reports. The casualties on both sides indicate the fierceness of the struggle. The Boer casualties are now limited to over 400. The British prisoners say sixty Boers were buried on farms. The Boers informed the prisoners that they expected to find the Fort Italda garrison only 100 strong.

The main body of the Boers is still near the Zululand frontier.

There seems no doubt, says the Times' correspondent, that the Boers intend a combined invasion of Natal, east and west.

Col. Kekewich is regarded by South Africans as a vigilant officer, with a narrow mind, and lack of flexibility. While he defended Kimberley successfully, it was Cecil Rhodes who recruited the volunteer force of Colonials and imparted courage to the people of the town. Col. Kekewich did not get on well with Mr. Rhodes, who was the real defender of Kimberley. There is a story that when Gen. **KRUGER'S CONDITION.**  
GROWS SLOWLY WEAKER.

THE NEW ASSOCIATED PRESS—A.M. 1. THE HAGUE, Oct. 4.—[By Atlantic Cable.] A. D. Wolmarans, one of the Boer envoys, who has been visiting Mr. Kruger, has returned, and found the president of the Transvaal to be by no means satisfactory. Mr. Kruger is believed to be slowly growing weaker physically and mentally. His slow progress in reaching a decision on important questions is found to be a serious hindrance to those working in Europe in behalf of the Boer cause. At the slightest question regarding his health Mr. Kruger exhibits intense irritation and vehemently denies that he is not well. The approach of winter causes anxiety, as Mr. Kruger refuses to leave Holland.

According to a remark made by a prominent Boer, the former President's condition would long since have been much worse if he had not been in the mental condition of the former President of the Transvaal to be by no means satisfactory.

**KIPPLING STRIKES HOME.**  
THE NEW ASSOCIATED PRESS—P.M. 1. LONDON, Oct. 4.—"In spite of the pledges of the government, the whole army machine is to be hauled back, as soon as it may be done, to the old rules of impotence, pretense and collapse," writes Rudyard Kipling in his striking letter to the Spectator, upon the appointment of Sir Redvers Buller and Sir Evelyn Wood to command army corps.

This pungent sentence voices the national feeling that has prevailed this week, without regard to party politics. All the week, regardless of politics, take the government to task. "The English people," again to quote from Kipling, "have paid a heavy price in money and in blood that there might be born an army handled by fit and proven leaders."

**OLD TEETH**  
When a tooth is so badly decayed or broken away that it will not give support to the crown, we remove the entire tooth with a gold shell (usually called cap or crown) and secure a new tooth. This is an exact copy of the tooth before and is made to fit accurately to the margin of the gum. It is made of a material which sets and hardens like concrete and holds for a lifetime. This cement also acts as a filling and protects the tooth root against decay and heat. Dr. Schindler's method is the best and the most successful of the old method.

Dr. Schindler pulled my tooth. "Did it hurt a bit?"  
"No, it didn't." I couldn't believe it was out till I saw it. "It didn't hurt a bit," said Dr. Schindler. "It was a very good tooth, and it was made to fit accurately to the margin of the gum. It is made of a material which sets and hardens like concrete and holds for a lifetime. This cement also acts as a filling and protects the tooth root against decay and heat. Dr. Schindler's method is the best and the most successful of the old method."

It is with pleasure that I state that I have had several teeth removed by Dr. Schindler, and that he removed the nerve and filled the root of each tooth and put on a porcelain crown which cannot be distinguished from a natural tooth, all of which was done without pain. Dr. Schindler's method is the best and the most successful of the old method.

FORESTRY EXHIBIT. Features of this Display, From the Department of Agriculture, at the Pan-American.

[Exposition Circular.] The Forestry Division exhibit consists mainly of a photographic collection illustrating the relation of agriculture to forestry, supplemented by maps and sections of the commercial timber trees from the Appalachian mountain region.

The photographic display embodies sixty or more slides, together with twenty colored and uncolored transparencies. The subjects illustrated by bromides and transparencies comprise, briefly, the various methods of lumbering, their effects on forest production and on the adjacent agricultural lands.

The forest fires on the forest land and the relation of such denudation to the flow of water in streams and the supply of water for irrigation are fully shown. The principal types of trees and forests are illustrated to show the size and lumber production of forests occupying agricultural and non-agricultural lands.

The value of preserving certain types of protective forests on watersheds for the conservation of water important to adjacent large areas of agricultural lands is illustrated by a series of slides.

A special feature of the photographic display is the illustration of individual trees of the mammoth big tree, the giant red fir, white fir, and the sugar pine of the California Sierras by colored transparencies. It is interesting to state in this connection that the largest ever made. Typical agricultural valley lands in the East and West are illustrated on the same scale, showing the difference in the natural shelter and planted shelter belts of forest trees.

The rearing and the subject from which these illustrations were taken are representative of the principal agricultural and forest sections of the United States.

Fourteen colored maps of the United States show the distribution of the principal forest types and species. The distribution of rainfall in relation to the forest types is also shown.

## DID HE HIT THE BISHOPS?

Dr. Dowling Declares He Did Not.

Church Controversy is Reopened.

Rector of Christ Church Opens Direct Fire on Rev. B. W. R. Taylor.

Rev. B. W. R. Taylor, the rector of St. John's parish, of this city, recently sent a communication to the New York Churchman criticizing the Outlook for having published editorially the statement that "the high-church party is strong in California, and the introduction of Roman Catholic ritualism is fostered to a surprising extent."

Mr. Taylor said in his letter: "I wish to say that I am a high-church man, and I have lived fifteen years in California, to deny its statements most emphatically. . . . The real fact of the matter is that there is very little of so-called ritualism in any of the dioceses comprising the State of California."

We publish a copy of a reply to this letter by the Rev. Dr. George Thomas Dowling, the rector of Christ Church of this city.

DR. DOWLING'S RETORT. To the Editor of the Churchman: Rev. Dr. Dowling used to say that to every question there were three sides, my side, your side, and the inside. And this is true. However honest and earnest we may be, the personal equation enters so persistently and unconsciously to ourselves into the judgment of each of us that no mature man can be impartial because others differ from him. If he is, it is only an indication that he is not yet "grown up."

Accordingly, I have no quarrel with the Rev. B. W. R. Taylor, the esteemed rector of St. John's parish, Los Angeles, because in his recent communication he speaks of Roman Catholic ritualism in Protestant Episcopal churches on the Pacific Coast as being "non-existent." It is true that many of us will find it difficult to harmonize his conclusion with what seem to us to be the facts.

With the oldest Protestant Episcopal Church in the city of Oakland, recently converted or perverted, according to one's point of view, to the full practice of the so-called Catholic usage, so that many of its former worshippers have been compelled to leave their old church home; with two parishes in the city of San Francisco seeking the intercession of the Virgin Mary, one of them in the Latin tongue, as though she could not understand English; teaching the children of the city that the Lord's Supper, so nearly akin to transubstantiation that the difference between the two is as great as the difference between the East and the West, and the same extreme practices, and only preserved from complete disintegration by the saintly life of its rector, who, whatever his teaching, is certainly a man of God; with still another in the city of Los Angeles, in which the minister who was in charge, who preached his opening sermon to a crowded attendance, delivered a discourse to a congregation of three people; with a monthly publication, soon to become a weekly, in the city of San Francisco, whose avowed purpose is to "kill Protestantism" in the Protestant Episcopal Church; in the city of Los Angeles, in which the minister who was in charge, who preached his opening sermon to a crowded attendance, delivered a discourse to a congregation of three people; with a monthly publication, soon to become a weekly, in the city of San Francisco, whose avowed purpose is to "kill Protestantism" in the Protestant Episcopal Church; in the city of Los Angeles, in which the minister who was in charge, who preached his opening sermon to a crowded attendance, delivered a discourse to a congregation of three people; ## UNION LABOR GOES TO WORK.

Strike Settlement is Now Assured.

Police Return to Their Former Places.

About Eighty Per Cent. of the Old Teamsters are Reinstated.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 4.—[Exclusive Dispatch.] Today the settlement of the strike of the teamsters and the City Front Federation proceeded smoothly, rapidly, and in a manner satisfactory to all parties to the recent controversy. Many union men secured positions, while, on the other hand, some non-union men were apparently discharged, some voluntarily, and some still retain their places. The two principal factors in the case of those who left of their own accord appear to have been the apprehension of individual trouble and the fact that the restoration of industrial peace brought with it the reduction of high wages paid during the strike.

The day was so peaceful that, at noon, the police details were called in and the force was directed to resume its regular duties as before the strike. Trucking and freighting proceeded with a rush, and there was a distinct air of relief throughout the business section.

Among the draymen, union teamsters replaced non-union men to a large extent. Fully 80 per cent. of the teams now have union drivers, and more will be taken on today and Monday. About 40 per cent. of the non-union drivers who had exhibited more or less efficiency in their duties were notified that they would be retained if they wished to remain, but fully three-fourths of those so favored declined the proffer, leaving only about one-tenth of the non-union drivers still employed. Most of these, and possibly all, are expected to go out tonight, as the bonus given during the strike will not be paid after this week.

At the teamsters' headquarters, Michael Casey, delegate of the Brotherhood of Teamsters, estimated that 80 per cent. of the men had applied for their positions, and had been reinstated.

At the barn of McNab & Smith, on Brannan street, this afternoon, there was a busy time paying off special policemen who have been guarding the company's trucks for the last seven weeks. The stars and clubs belonging to the specials were being turned in, and the men were getting their money. Orders from police headquarters were to the effect that all men were to be taken off the trucks at noon. At that hour, the regulars resumed their posts, and the work of the specials came to an end.

PILE-DRIVERS STAND PAT.

[BY THE NEW ASSOCIATED PRESS.—P.M.] SAN FRANCISCO, Oct. 4.—The pile-drivers and bridge-builders who struck in sympathy with the teamsters, have so far refused to return to work. The contractors insist that the regular foremen shall not be members of the union. They take the stand that, as the foreman is the direct representative of the employer, it is not right that he should divide with any union the allegiance he owes to the man he represents.

So far, the members of the union stand firm. The non-union men engaged during the strike have proved satisfactory, and none of the contractors are idle on account of the union's stand. This matter of the foreman is the only question involved. Wages and hours are up to union requirements, and up to the time of the strike union labor was given the preference.

UNION SEAMEN.

[BY THE NEW ASSOCIATED PRESS.—P.M.] SAN FRANCISCO, Oct. 4.—At the headquarters of the Sailors' Union of the Pacific, the statement was made that applications for union crews were being received all the time, and that as is only a question of a week or so before the entire membership will be employed to the extent that prevailed before the strike. The steam schooners engaged in the lumber business are rapidly getting ready to resume business, and will take union crews throughout. The same is true of the other coastwise craft. During the strike, the Sailors' Union furnished much of the sinews of war, and aided financially other unions involved in the struggle.

About four hundred box-makers returned to work today. Several gangs of longshoremen and stevedores have found work, and so have a great many coal-handlers.

After a lengthy and spirited session, at which Father York delivered an address, the marine firemen today ratified the strike settlement.

RAILROAD PEOPLE JUBILANT.

[BY THE NEW ASSOCIATED PRESS.—P.M.] SAN FRANCISCO, Oct. 4.—The railroad people are jubilant because of the way things are moving at the freight yards. This morning 100 cars were released from the Oakland yards and brought to this city. This is proof that the freight in this city is being rapidly cleared up. Manager of Transportation hopes that by the end of a week, there will be a complete clean-up of the present yards, and that after that time the what number of cars could possibly be released tomorrow, he said, that about two hundred cars represented a fair average.

All work was proceeding without a hitch in the yards of this city, as well as in Oakland, and there is not the slightest fear that there will be any interruption.

COAL MINERS STRIKE.

THEY WANT THE EARTH.

[BY THE NEW ASSOCIATED PRESS.—P.M.] SHAMOKIN (Pa.) Oct. 4.—Twelve hundred men and boys have gone on strike at Natalie colliery, to force the Shamokin Coal Company to evict an ex-foreman who gained the enmity of the miners.

They had succeeded in having the foreman dismissed, and they now demand to be driven from the village.

TRY TO CONCILIATE.

ALL HANDS THREATENED ALIKE.

[BY THE NEW ASSOCIATED PRESS.—P.M.] PITTSBURGH, Oct. 4.—The American Tin Plate Company has adopted a policy of conciliation toward its em-

ployes, who were recently engaged in steel strike. Not the slightest discrimination, it is officially stated, will be allowed against the old men when they return to work. Some of the old men have gone back to the mill, but the majority of them are still waiting for recognition of their union.

GOLD IN SIBERIAN COAST DISTRICTS.

A PROBABLE EARLY OPENING TO AMERICAN MINERS.

EVANOFF, a Russian Engineer and Geologist, Now in Seattle, Crossed to Siberian Coast from Nome and Prospected Country—Is Positive Gold in Plenty is There.

[BY DIRECT WIRE TO THE TIMES.]

SEATTLE, Oct. 4.—[Exclusive Dispatch.] Prospects are bright for early opening of the coast districts of Siberia to American gold miners. Already the Russian government has this matter under consideration, and a representative has recently returned from a trip to the coast for the purpose of investigating the conditions there and reporting on the advisability of the proposed action. This representative, D. V. Evanoff, a Russian Engineer and Geologist, arrived from the north on the steamship Queen, and is presently in Seattle, whence he will go to Vladivostok to confer with the Governor-General of the Amur district. From Nome he crossed to the Siberian coast, where he spent three weeks among the natives and in prospecting the country. Evanoff reports that he is positive from his investigations that there is gold in plenty, and that it would soon be discovered if the country were thrown open to American miners. He states that the mine-working season will be considerably longer than at Nome, on account of more favorable weather.

IN WRONG ENVELOPES.

Kansas City Young Woman in Pack of Troubles Which Chicago Official Disputes.

[BY DIRECT WIRE TO THE TIMES.] CHICAGO, Oct. 4.—[Exclusive Dispatch.] Since Thursday morning the Chicago postoffice has been bombarded with telegrams from a young woman of Kansas City imploring that two letters which she had mailed to Chicago men be stopped. She explained that her whole future happiness and that of others depended upon stopping those letters.

The young woman—too bad her name can't be given, but it is against the rules of the postoffice—arrived at the Lake Front Federal building today. She rushed into the presence of Superintendent Cahill and told him: "Have you got them?" she asked in breathless suspense.

Cahill pushed some electric buttons, and in two minutes there was a scurrying of clerks from all parts of the building. They got their hands together in a provokingly deliberate way, but finally Cahill held in his hand two much-marked envelopes. "Here are two letters that we stopped in answer to your letter," he said. "One was directed to the West Chicago station and one in the Englewood office. Are these your letters?"

The excited young woman fairly swooped upon the outstretched envelopes. Tears of gratitude and smiles of delight mingled on her pretty face as she thanked Cahill and tore open the letters.

"See, this is the one to the man I meant to marry. It says, 'No,' she explained to the sympathetic clerks, 'and here is one to the man to whom I wish to be only a sister. It says 'Yes.' If nobody else appreciates this story except a man in Englewood and a man in West Chicago, and those who sometimes put letters in wrong envelopes, it's all right."

ACTIVITY OF BOERS.

CAPE TOWN, Oct. 4.—[Exclusive Dispatch.] In consequence of the activity of the Boers in the southwest district of Maseru Bay, the town guard has been called out. The British cruiser Beagle landed a party of blue jackets with Maxim guns, the shops were ordered closed and the trenches manned.

Gen. Smuts' command, between 300 and 400 strong, passed through the Grahamstown district, hotly pursued by the British columns under Col. Grabbe, and others. Gen. Smuts was enabled by an armed train near Sheldon.

Lieut. Massdorph, of Graaf Reinet mounted troops, was fatally wounded by members of his own corps, who mistook the Lieutenant for a Boer. Another trooper of the same corps narrowly escaped a similar fate.

A PLUMP FIGURE.

Makes a First-Class Telling Argument.

"About a year ago a doctor and his wife came to board with us. We already had Miss G., who was at that time thin and yellow and considerably out of health."

"The first morning the new boarders came to the table as guests, the young lady remarked as she set her cap down, 'This is coffee!' while the doctor added, 'Not at all like the poor coffee they have been giving us at the hotel.' I smiled behind my napkin and asked if either of them used Postum Food Coffee. The doctor said he had tasted it, but it was weak, miserable stuff. Miss G. had heard of it and wished she could try it."

"I said nothing, but at the end of three months, when Miss G. was ready to leave us for a new field of labor, said, 'I have been giving you Postum Food Coffee all the time you have been here. What, is that coffee, Postum?' she said. I remarked that I had noticed with great pleasure, her daily gain in health, and now that she was leaving us after only three months at our table, she had rosy cheeks and a plump figure, which was all the argument any one needed to prove the fact that she had been well cared for, and the reason for her gain in health was the use of Postum Food Coffee, for no other change had been made of any account, in her food."

"The doctor was very much delighted with the experiment, and discovered that where he had tried Postum before, he had been unfortunate in having it underbelled. Postum must be boiled fifteen to twenty minutes to bring out the delicious flavor, and then it will suit the taste of any one."—Mrs. Florence Dougherty, Placerville, Idaho.

## TOOK COUNSEL IN BIERER.

Salt Lake Road Gets a Specialist.

Will Prepare the Cases to be Heard.

Santa Fe Considers Extension into Sonora—Hill's Latest Survey.

[BY DIRECT WIRE TO THE TIMES.]

SALT LAKE, Oct. 4.—[Exclusive Dispatch.] The announcement is officially made of the appointment of E. Bierer, an assistant counsel for the Santa Fe, Los Angeles and Salt Lake Railroad. Bierer was formerly a resident of Washington, D. C., and came to Salt Lake for the specific purpose of assisting in the preparation of the cases that are to come up soon before the San Pedro and Short Line.

Bierer for years had charge of the mining work in the Land Office at Washington, and is a specialist in his line. He has formed a partnership with C. O. Whittemore, who has been looking after the legal affairs of the San Pedro line in Salt Lake for the past year.

WOULD BUY MEXICAN ROAD.

EXPERTS EXAMINE ROUTE.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Oct. 4.—[Exclusive Dispatch.] It is announced that the Santa Fe is considering the advisability of buying the Rio Grande, Sierra Madre and Pacific Railway, and extending it into the newly-discovered mining regions of the Sonora district. Chief Engineer James Dun of Santa Fe, general manager John P. Ramsey of the Rio Grande, Sierra Madre and Pacific, Messrs. Smith and Potter, wealthy men of El Paso and mining experts of the Santa Fe road, have just finished an examination of the road and the territory that runs through and taps, and the resources available for traffic.

Special attention was paid by Dun to the timber along the route, with a view of creating a supply for Santa Fe ties in the future. The party tramped and drove all over the Sonora and Chihuahua districts, visiting Mulatto, and went along the slope of the Sierra Madre.

The Rio Grande, Sierra and Pacific road extends from El Paso to Toros, twenty-five miles, is 4.5% gauge, has six locomotives and 227 cars.

BURLINGTON SURVEY.

EXTENSION NOT GIVEN UP.

[BY DIRECT WIRE TO THE TIMES.]

CHEYENNE (Wyo.) Oct. 4.—[Exclusive Dispatch.] Maps of survey have been filed by the Burlington engineers at the Land Office here, covering a right of way from the western line of Carbon county to the Platte River. Maps had previously been filed covering the other parts of the route. The action in filing these maps at noon.

FLASHES FROM THE WIRES.

Sir James Reed, the distinguished physician who is staying in the vicinity of Aberdeen, Scotland, has been summoned to Balmoral, as King Edward is suffering from lumbago.

At the cutlers' feast in Sheffield, Eng., the Earl of Halsbury, Lord Chancellor, and Robert W. Hanbury, president of the Board of Agriculture, made important declarations which seemed to show that the government had reconsidered the advisability of reducing the Irish representation in Parliament.

Black damp was found in such quantities in the Extension mines in British Columbia, yesterday that the work of reopening the mine and continuing the search for the bodies had to be stopped. The presence of so much of this damp strengthens the theory that the fire is out.

Admiral Lefevre has resigned from the council of the Legion of Honor because of the dismissal of the Duc de Auresstadt, from the Grand Chamberlainship. It is believed that the resignation of Gen. Harting will follow.

Sir Francis Laking, King Edward's physician, went to Balmoral yesterday. His Majesty is reported to be suffering from an attack of rheumatism, but went for a drive during the afternoon.

## BIG SPECIAL PIANO SALE NOW ON.

THE BARTLETT MUSIC CO.

233 S. Broadway, Opp. City Hall.

THIS time is regarded as significant. It is thought that Jim Hill intends to show the Harriman syndicate that, although they may have a majority of the Northern Pacific stock, the Burlington cannot be controlled through their instrumentality. This is thought to prove conclusively that the scheme for this Burlington extension has not been abandoned.

ALGER NAMES SUCCESSOR.

SEASONED MAN CHOSEN.

[BY THE NEW ASSOCIATED PRESS.—P.M.]

SAN FRANCISCO, Oct. 4.—James Agler, the newly-appointed manager of the Southern Pacific Company, today named a successor to himself in the position of division superintendent of the western division of the road. C. C. Drouff, at present resident engineer of the road at Tucson, which he vacated to accept the higher office.

He selected James L. Frazier, superintendent of the Coast division, for the place, and named Bert A. Worthington to take Frazier's position at Third and Townsend streets. Worthington was until recently the private secretary of Henry E. Huntington, and through the influence of the latter he was appointed to succeed Superintendent Handolph on the Tucson division.

For the place just vacated by Worthington, Manager Agler has appointed C. C. Drouff, at present resident engineer of the road at Tucson.

DETAILS OF ATTACK ON NINTH REGIMENT.

COMPANY SURPRISED AND ARMS MOSTLY CAPTURED.

Lieut. Drullard Sent to Balangiga—Secured or Destroyed Nations Buried Bodies and Burned Buildings—De Russay Sent to Chastise Savages.

[BY THE NEW ASSOCIATED PRESS.—P.M.]

WASHINGTON, Oct. 4.—The War Department tonight received the following dispatch from Gen. Chaffee, dated Manila, October 4, and giving further details of the attack on the Ninth Regiment:

From those who escaped, the following is learned:

"September 24, while at breakfast, company was attacked at the signal, the inhabitants of the deserted town firing one shot. Buried three officers and twenty-nine men, the number of bodies buried. The quarters and buildings were fired as we entered. We secured or destroyed most of the arms. Fight ensued for them in which most of the men met death in the mess room. The rear. The enemy was beaten off temporarily by about twenty-five men who gained their arms."

"Sergeant Betron assumed command and endeavored to collect the men and leave in boats, but was reattacked by the enemy. The strength of the command was three officers, seventy-two men. Killed, three officers and forty enlisted men; missing, six; wounded, thirteen; present, thirteen."

"The party attacking the officers in the convent retired through the church in large numbers, led by the President."

"Probably 100 rifles were with the company, of which twenty-six were saved; fifteen of the lost rifles were drawn, and 25,000 rounds of ammunition were lost."

"Ninety-five prisoners outside the quarter joined in the attack at a signal. A boat of the missing men of the company was seized. Capt. Bookmiller may pick the men up."

"Sergeant Betron assumed command and endeavored to collect the men and leave in boats, but was reattacked by the enemy. The strength of the command was three officers, seventy-two men. Killed, three officers and forty enlisted men; missing, six; wounded, thirteen; present, thirteen."

"The party attacking the officers in the convent retired through the church in large numbers, led by the President."

"Probably 100 rifles were with the company, of which twenty-six were saved; fifteen of the lost rifles were drawn, and 25,000 rounds of ammunition were lost."

"Ninety-five prisoners outside the quarter joined in the attack at a signal. A boat of the missing men of the company was seized. Capt. Bookmiller may pick the men up."

"September 30—Have returned from Balangiga. Drullard explains the condition correctly. We landed yesterday, the inhabitants of the deserted town firing one shot. Buried three officers and twenty-nine men, the number of bodies buried. The quarters and buildings were fired as we entered. We secured or destroyed most of the arms. Fight ensued for them in which most of the men met death in the mess room. The rear. The enemy was beaten off temporarily by about twenty-five men who gained their arms."

## The Broadway Department Store

Cloak, Suit and Millinery Section

This seems to be the favored section of this big busy store, and there are splendid reasons why it should be so. It's so light, so airy, so well arranged, roomy and comfortable. There's such a dazzling array of beautiful new vogueish garments to please the eye, and the prices are so inviting. It's a pleasant surprise to every woman that asks the price of a garment.

Neat Cheviot Suits \$8.69

Made of good grade black cheviot, Eton jacket trimmed with bands of stitched satin, skirt cut flare-gore with flare bottom; better suits than you usually see at \$10. Broadway special, per suit, \$8.69.

Pretty Golf Capes \$4.89

Suitable for women or misses, made of handsome plaid golf cloth, plain or plaid centers with reverse color on edge, double cape or hood, finished with bands of stitched cloth, flare bottom, good value at \$7.50. Broadway special, \$4.89.

Chic Trim'd Hats \$4.95.

It would be impossible to describe the beauties of these trimmed hats in cold type. The shapes are the very latest. Trimmings and embellishments just what Dame Fashion has decreed. Color combinations and outlines were planned by New York's most noted milliners. \$7.50 would be a very modest price for these hats; in fact, most of them have the appearance of a \$10.00 hat. Take your pick at \$4.95.

New Walking Hat, \$1.95.

Modish shapes in the new camel's hair felts; stitched felt hats in new shapes; some trimmed with rich drapes, others with pompoms and plumes. Styles are too varied to describe. You'll acknowledge when you see them that they're as pretty a line of \$5 hats as you ever saw. Come early while the assortment is fresh, as they're priced in such a manner that they will move in a hurry. Your pick at \$1.95.

Handsomely Tailored Suits \$10.00

Women's suits of fine grade cheviot or venetian cloth, in tan, brown, navy blue or black. Eton jackets of the new long coat effect, coats finished with reverses of satin, horn buttons, and lined with fine Italian cloth; skirts flare-gore flare bottom; new and extremely stylish suits that you'll have hard work duplicating at \$12.50. Broadway special, per suit, \$10.00.

Saturday Night Specials.

On Sale From 6 to 10.

Boys' satin calf shoes, solid leather throughout, good strong extension soles, round toe and tip, all sizes; would be cheap at \$1.75. Special, tonight, per pair, 70c.

Pure linen buck towels, hemmed with pretty red borders; actual measurement 28 inches long by 18 inches wide; worth 12½c; special tonight only, in limited quantities, each, 7c.

Boys' suits of fancy, small checks and pepper and salt mixtures, ages from 8 to 14 years, regular price \$1.45. Special tonight only, per suit, 90c.

# GREAT "ZOO" PROJECTED.

Range for Wild Beasts in Los Angeles.

Ideal Place and Would Be Far Famed.

Men Ready to Give Animals of All Kinds to Be Put in a Big Park.

The climatic conditions of Southern California, and particularly the select variety included within the limits of Los Angeles, are to be made resourceful in a novel manner, if the plans proposed by a resident of this city are carried out.

The scheme, in brief, is to have a zoological garden, situated in one of the larger parks, preferably Griffith Park. Abner L. Ross, former proprietor of Hotel Rosslyn, has interested himself in the enterprise and thinks it can be made a success.

"This enterprise," said Mr. Ross, "if developed successfully, will make Los Angeles famous. This is the only large city in the United States whose geographical location would insure its success. It might be done in Florida, but with there and here, and I would prefer Los Angeles."

"The first question is, of course, as to where such zoological gardens could be located. For my part, I would prefer Griffith Park. If the city would set aside two or three hundred acres in that large tract of land for a park, it would be ideal for such a purpose. It is lowlands, valleys, cohes and mountains, is practically free from frost, and good supply of water would be accessible. My idea would be to inclose a well-sized area with a stone wall, material for which could be got there at small expense."

"It would hardly be practicable, I think, to have any but non-injurious animals, but of these very large and interesting variety could be collected. The question of feeding them need not trouble us, as nearly all kinds of fruits, grains, and vegetables for their subsistence could be raised within the enclosure. If this can be done Los Angeles will have what has been attempted in other cities only on a small scale—a zoological range for beasts, big and little, of all countries, to roam free."

Mr. Ross then makes the statement that he can name at least fifty men in Los Angeles who would donate a pair of animals apiece, and says that he is willing to put such a four-footed creature, hooped or otherwise. Although Griffith Park is not at present easily accessible owing to the lack of street-car facilities, this would be readily changed if there were a park full of elephants, buffaloes, camels, kangaroos and the other denizens of Noah's Ark.

It is thought by those who have interested themselves in the plan that business houses in the city will fall with it and each one donate a pair of animals as an advertisement. This is not mean, however, that the highest, for instance, will be used by donor as a walking billboard, or a Smith can paint in showy letters the elephant "See Smith for pens."

USK DAYS THESE FOR PEACH LOVERS.

REGANT FRUIT SOLD FOR ONE CENT PER POUND.

Six Thousand Boxes Delivered at the Cannery in One Day—Lively Scenes at a Morning at the Ninth-street Market.

There is a lot of fun at the old Ninth-street market these mornings. Peaches and grapes hold the front rows in the market department, and peaches make up the greater part of the business. Peaches are generally brought in in 25 to 30-pound boxes, and there are so many coming in that people who take the trouble to buy from first hands need not stint in the family. A good many go there in the morning and march away well satisfied with a box of fine Salinas for 25 cents. Think of luscious peaches at 1 cent per pound! Three pounds cut up with sugar will make a pretty good dessert for an average family. You do not have to have cream with them unless you wish to and it is convenient. The advanced people who think of their stomachs do not eat cream on peaches. The acid of the peach and the cream are not much better than the peaches alone. The dietetic people see things.

AS HE POISONED!

Charles Wolf Alleged to Have Used Narcotic to Go Away With a Girl.

Charles Wolf was arrested last night at Center and Aliso streets and booked the Police Station as drunk, although he did not appear to be intoxicated. Opposite his name on the blotter was placed the legend "no bail." The man was made by Patrolman Wilson, who only said that Wolf had had a little to drink, a woman who would gladly swear to a complaint against him.

Early an hour before Wolf was picked up the same officer arrested a man who he found almost unconscious in the street and who was unable to give name when he reached the Police Station. Papers on his person bore the name of R. Tharr, but several testified that they knew him. He was supposed to be simply dead, and he was placed in the cell. Wolf was brought in, however, arresting officer made a report of variance with what he stated.

OFFICIAL, Spring St.

was the reason for the arrest. His report was not made public, but it was learned that Wolf is suspected of having poisoned Ybarra or Sanchez, and for that reason he will not be admitted to bail until the case can be thoroughly investigated.

The two men are said to be rivals for the favor of a woman who lives near where they were found, and the police were informed that they hated each other bitterly. When Wolf was taken to the jail and Wilson made his report, Ybarra was taken into the Receiving Hospital and the assistant police surgeon examined him. He was still unconscious, but the surgeon was unable to find any evidences of other poison than the intoxicant which he had imbibed. He was put to bed and another examination will be made today. Throughout the night he was closely watched but no symptoms developed which were considered serious.

SHIP AGAIN WRECKED.

Herr Kress, the Inventor, Loses Flying Machine and is Himself Nearly Drowned.

(BY THE NEW ASSOCIATED PRESS—A. M.) NEW YORK, Oct. 4.—Herr Kress, inventor of an airship, started Thursday afternoon on another trial flight on the Tullerbachner reservoir, says the Vienna correspondent of the Herald.

The result was disastrous. After going a certain distance, Herr Kress started his motor at full speed ahead, which caused the forward part of the flying machine to rise about thirty-five centimeters out of the water. On rising to this height, the whole machine suddenly lost its equilibrium and swung over to the right. This caused it to fill with water, and it sank like a stone. The water at this point is fifteen metres deep.

Herr Kress, who was alone in the flying machine, was carried down with the ship, but thanks to the life preserver he wore, he came to the surface which the officer and engine man, who were witnesses of the accident, held out to him.

The aged inventor—he is more than 70 years of age—was in a very exhausted condition and had sustained some slight injuries. He was taken home to Purkersdorf.

The flying machine sank to the bottom. It will be fished up today (Friday) when it will be seen if it is still in working order.

JACKIE McBRIDE, BURGLAR.

Being the Record of the Jackie McBride Burgle as Related by the Burglar and Written by Will Livingston Comfort.

Published under special arrangement with A. M. McClure Co., New York.

A TERM of imprisonment is to a certain degree like the brand of Cain, because it leaves upon the person a peculiar manner of expression which is indelible. Especially is this true when the convict is a man of high-strung temperament. From the freedom of the outer world to the dim stone or iron-bound cell with its steel-shed lock, is a frightful shock, even to the stoutest system of nerves. An imaginative mind is the latter possession a prisoner can have. Such a mind the silence tortures, the utter hopelessness maddens, the absolute nothingness terrifies.

"Several years ago a young man was brought to Sing Sing and happened to be placed in a remote corridor. Through his bars he could see nothing but the stone wall of the building. Not even a window relieved the monotony from his viewpoint. Inside of an hour the new prisoner was pacing his cell nervously. Two guards came in the evening and sat down in the far end of the corridor to play checkers. The young fellow could hear them talking in low tones and moving their pieces. He called to the guards several times, and was finally threatened with the strait-jacket. It seemed to him that he was placed in a cell where he could see somebody pass. After the menace of the strait-jacket the young man uttered no sound. Two hours later he was found lying in the bottom of his cell, temporarily insane and almost unrecognizable. It was not until his mind and body were not let him breathe. And this same young man had revealed a peculiar derangement outside. He recovered fully afterward.

"A term of imprisonment thoroughly intimidates a man. The cell may be a veritable breeding ground, but it invariably induces caution. In the majority of cases it narrows a man's life, and he becomes a creature away from his spirit and destroys his individuality. If a convict has the faintest trace of suicidal madness in his blood, confinement will engender it into a passion, and such a passion preys with deadly zeal and subtlety upon his reason and his morality. An impulsive, daring young law breaker enters a prison to serve two years. His time over, he emerges a pallid, flabby, hunched, evil-eyed fellow, full of hate, infernal craft and evil plans, matured into absolute perfection. Long after the great outdoors has brushed away the pallor of the prison you can tell an ex-convict by his eyes." (The ex-warden.)

With Jackie McBride, who had a year to serve for attempting to enter the mansion on West Fifty-sixth street, these conditions did not prevail. A century or more before the great Morality was jailed in London, many of his descendants, the McBrides, died in prison. In periods of captivity these hard men had schooled themselves to vast patience and a sort of stoical serenity. Their education, self-made, became a heritage to Jackie McBride of our day. A year's imprisonment meant to him only a temporary setback. There would have been a certain element of disgrace attached had he been captured while attempting to get away, but he was taken for his first job simply because he had stuck to it. McBride, who was wounded into death.

Jackie had no time to brood over his misfortune. Directly after his cell door closed he observed the busiest man in the prison. Being young and small, he was given a chance in the tailor department, but he refused it, preferring to break stones. So his muscles were hardened. In the evenings he read and improved his mind. Beyond the toll and the reading there were only two other possible things in the terrible routine—eating and sleeping—and Jackie did both with will.

At length the day of doom came. At noon Jackie was brought into the prison office. Not a soul had come to meet him.

"Good-by, Mr. Wilford—you've been good to me," the little fellow said. His hand, calloused from hard labor, was extended to the warden.

"Good-by, Jackie," said T. "Let me come to see you next time." Not later than that the happy young man waved to me from the rear of a motor car, and I saw him no more. The form of a train pulling down toward the city. Even then I feared that it would not be long before I would seek Jackie if we were to meet again.

The second event of significance in McBride's life happened a long time ago. He was even now in police circles. In the years which followed the boy came to trust me, and so I became his confidant. A mansion on West Fifty-sixth street was entered by a single burglar. The value of the loot was \$1500. Mr. Stephen Hendrie, the owner of the house, was awakened by a cry from his daughter. Following the cry Mr. Hendrie heard some one descending the back staircase swiftly and quietly. The gentleman was an expert pistol shot in an amateur way. He grabbed his revolver and ran to one of the bedrooms. The burglar was crossing the back porch at the time he fired. He was sure that one or more of the shots had struck, but the burglar was not dropped. Papers or police ever found the new papers.

A STUDY OF METHOD. In a small, dimly-lighted room over a saloon near the foot of Bleeker street one night about two months after Jackie's release from Sing Sing.

"You're a little fool," snarled the older McBride. "All right, dad," Jackie answered, "but I got the bunch." "Old Pete Dresser was killed on that night," the father said. "You were there," exclaimed the father in a low, intense voice. "You got a year for that, and you're back here tonight. What's more, I'm going to see you in the morning." A slip of a girl with pale skin and large gray eyes approached the boy. They were suffering and dread, but a gleam of tenderness shined in the look of the older man. "You'll be careful, Jack," she pleaded. "I'll be anything for you, Nell," he said, very gently, and then he caught the girl's cheeks. The elder McBride was more so than to relieve the pressure of the moment, and said other harsh things of which he meant not a word. Indeed, the elder McBride was almost overcome by a sense of shame and was overwhelmed with pride for the boy who dared to go back to the place where he had been caught once. Until late that June night in Nell's room, the boy and the girl sat together, and the elder McBride sat in the dark behind them, growing contentedly, harmlessly, and consuming great quantities of tobacco. "Why don't you pick out another

It is heroic for a woman to suffer in silence but a study of her face in the looking-glass must convince her it is not possible to hide her trouble. These pictures represent the faces of millions of women who are suffering today. They suffer in silence, but the lines and crow-tracks show that pain—the pain nearly always caused by "female troubles"—is there. Do you expect to suffer the agonies of female ills every month during your life? If you do suffer, it will be because you choose to suffer. Did you ever stop to consider how little effort you are making to secure health? Do you really want to be well? No woman has made every effort to gain health, when she has not tried Wine of Cardui. Female troubles wear out the life of a woman. Menstrual pain so shatters her nervous system that she is often brought near to the asylum or to the grave. These frightful alternatives are the almost inevitable results of prolonged suffering. Every woman should understand that deranged menses cause headaches, backaches, nausea and derangements of the stomach, bowels and kidneys. Wine of Cardui stops all this by regulating the menses and strengthening the ligaments which hold the womb in place. This pure Wine has completely relieved 1,000,000 women of menstrual pain, giving them strong nerves and rugged health. This medicine has demonstrated that it is not necessary for a woman to go through untold agony every month.

I will at least write a few lines to let you know how I am enjoying life after taking Wine of Cardui. I can say your good medicine has done me more good in the thirteen months I have been taking it, than all the doctors and their medicines have in all my long suffering, which has been 21 years. I can eat at the usual times and sleep like a child. I have no pain at my monthly period, so I feel like a new woman. I advise all sickly women to use Wine of Cardui. I never will stop using it.

Go to your druggist today and ask for a \$1.00 bottle of Wine of Cardui.

place?" the latter asked at length. "That ain't the only house in town." "I've sized that place up for two months, dad," Jackie replied. "I've figured how she's laid out, what's in her and who's in her; and I'm going to bring back some wedding gowns for Nell."

"More likely hung," muttered the father, and seeing that Jackie was preparing to leave, he beat a retreat hastily, not desiring to be in at the finish. "I don't care for any joss, Jackie—only you," Nell whispered. They were standing by the door. Across the dark, ill-smelling hallway was the room of the McBrides. From the street below ascended faintly the voices and songs of the city. A low, hanging street lamp shot a pool of light upon the floor. There were several arm chairs of value on the dresser, and in one of the upper drawers the young burglar's hand closed upon two tiny plush shoes of exceeding promise. These latter he pocketed without opening.

The room across the hall contained a sleeping man unmistakably. There was that faint, sweetish odor of liquor combined with a tobacco scent in the air. A low-hanging street lamp shot a pool of light upon the floor. These latter he pocketed without opening.

At 1 o'clock the following night Jackie concealed himself in the same shrubbery where Pete Dresser had called the preceding summer. His plans being absolutely his own, were of necessity daring and original. In the rear of the Bleeker street saloon, over which the McBrides and Nell lived, there was a small barn, where a hack driver named Ed Drover kept his horses and vehicle. Drover was accustomed to drive the hack to the house of the McBrides. He had a rare faculty of keeping out of trouble, and was already well known to the police as a crook, which denotes remarkable versatility on the hack driver's part.

Upon this night, as Jackie expected in a great measure the success or failure of Jackie's attempt on the mansion of the McBrides. The plan was as follows: Jackie was to conceal himself in the shrubbery at 1 o'clock. For a half hour he would wait, listening. If at 1:30 he had heard no sound in the house he was to begin operations on the window. He was to wait until the house was dark, and then he was to make an entrance, and twenty minutes in the house. He would leave by the back door and hurry up the alley two blocks, where the hack was to be ready. Once in the hack, Drover might drive back to the barn—as usual.

As on that other night, when the three waited in the shrubbery, there was no sound to be heard inside the great house. On the minute Jackie climbed to the ledge of the window and swiftly, silently, like the master of the house, he entered. He concentrated his energy upon the window lock. It proved to be an old-fashioned lock, and Jackie, as he expected, pressed it afterward. Before half the allotted time had passed the burglar had reached the rear drawing-room of the mansion, and he had entered through the same window that had shattered the glass before by the bullets which ended the career of old Pete Dresser.

his saviors, silence and darkness, stood by him. He reached the upper hallway and revealed that rare caution which is a part of courage in thoroughly locating the rear staircase before going further. Jackie wore rubber-soled shoes, which were light, flexible and noiseless. He paused at the doorway of a side room, his ears straining like a coyote's, and his eyes, long accustomed now to the dark, groped the objects in the apartment. It was unoccupied, at least for the night. The boy would not have dared to light a match in the room of a sleeper for a man, and he was both on account of the odor and the possible sound. He took the chance in this unoccupied room, however. There were several arm chairs of value on the dresser, and in one of the upper drawers the young burglar's hand closed upon two tiny plush shoes of exceeding promise. These latter he pocketed without opening.

Bleeker-street place. The father and Nell were bending over the boy. "I didn't take a gun—I had other things to carry," Jackie answered, grinning. The father swore in his joy. The girl bent lower. Outside the newboys were shouting about a robbery.

ROYALTY EASTWARD BOUND. SHERROFT (B. C.) Oct. 4.—The Duke and Duchess of Cornwall are once more in their special train and are returning eastward over the Canadian Pacific Railway. The royal special will reach Banff tomorrow afternoon and the party will divide there. The Duchess, with a majority of the party will remain at Banff, while the Duke continues on to Poplar Point, Manitoba, for a few days shooting. The Duke and Duchess will meet again at Poplar Point and go direct to Toronto, where they are due on October 10.
